

# ADA Conformance

## Last Revised:

- January 25, 2023

ZkrillaFi is committed to supporting our members and community in order to make credit access universal. As part of this mission, our website and product are built to be a resource for everyone, and are accessible to those with hearing, vision, and other disabilities.

ZkrillaFi is designed, developed, and regularly tested to conform with Level AA success criteria of the Website Content Accessibility Guidelines (WCAG) 2.1. If you have any difficulty, questions, or would like to report any issues related to the accessibility of our website, please contact us at [hello@Zkrillafi.com](mailto:hello@Zkrillafi.com).

## Browser and ZkrillaFi product

If you have difficulty in reading the ZkrillaFi website or product on your screen, you may be able to change the settings on your browser to help you improve readability and visibility of each webpage:

- Internet Explorer : Click Here for [Microsoft Internet Explorer Ease of Access Options](#)
- Apple Safari: Click Here for [Apple Accessibility Support](#)

Click Here for the Web3C [HTML Validator](#), a free service for checking that web pages conform to published HTML standards.

## **Website accessibility features**

This website is designed to be fully accessible to all and is designed according to W3C Web Content Accessibility Guidelines (WCAG) 2.1 and conforms to most priority checkpoints which entail some of the following elements:

### **Navigation shortcuts**

Our website can be navigated by using the tab key to traverse the elements of each page and by using the enter key to activate a link or button.

### **Structured, semantic markup**

HTML heading tags are used to convey the document structure. Navigation menus are tagged as HTML maps so that the menu title can be read out, and the menu items are presented as a group. Please see our Site Map for easy navigation at:

### **Images visibility**

All content images include descriptive ALT attributes and all purely decorative graphics include null ALT attributes.

### **Standards compliance**

The site is designed to conform to Level AA compliance as specified by the Web Content Accessibility Guidelines. All pages validate as XHTML 1.0 and use structured semantic markup.
